You may have noticed that beginning with the Christmas mailings we have a new format for our mailing labels. Our mailing list was previously in an antiquated program on the Binghamton mainframe; we now have it in a more modern program on desktop. It is now possible to amend addresses easily, to include 9-digit ZIPS, and Canadian and British alphanumeric postal codes, to access various sub-sets of addresses, and so on. The process of translation may have introduced some errors; please let us know of any which concern your address or dues date.

We have been renting our mailing list (providing labels, for a fee) to publishers of books in ancient Greek philosophy, and we will continue to do so; our double objective is to inform the membership of items of interest, and to keep the dues low.
